SPUN LACE VISCOSE MOPS

Super Absorbent Spun Lace Viscose String Mops

Introducing the ultimate in floor cleaning technology. These clever (Made in Italy) mops combines the cleaning power of spun lace viscose fibers and the absorption ability of a synthetic shammy. These string mops are more absorbent than any other available, and thanks to the high quality viscose fabric, they cleans with only water. Use them with your favorite cleaner if you want, but the unique weave of the fabric allows this mop to clean without chemicals.

You will be able to remove 99% of all dirt and germs with only water added. It will hold 47 times more liquid than a traditional cotton mop, but it also dries faster so it won't stink or grow mildew like they do. They are extremely hygienic and can even be used in clean room applications. Clean your floors faster, easier and safer. We offer these style mop heads in three popular sizes: 130 gram (SLM-130) & 180 gram (SLM-180) and the 260 gram Commercial Style Head (SLM-260).

Works great on any floor. Use them on hardwood, tile, vinyl, linoleum, marble, granite and more. The Mop Heads with the Plastic Caps(SLM-130 & SLM-180) are made to fit almost any Mop or Broom Handle!

Packing: 24/Box

This is the environmentally friendly way to clean your floors and keep them safe for children and pets. It also works great for cleaning up spills, leaks or puddles. The head is made from 100% non woven spun lace viscose so it is super absorbent. It locks the liquid in the fibers so it won't drip or make a mess. It also dries super fast so it will never rot or mildew and is always ready when you are. This unique material also makes it great for cleaning. Tiny hooks and loops scrape the surface to collect dirt and then lock it into the fibers. These string mops will remove 98-99% off all dirt, dust, grime, germs and bacteria from your floors with only water as a detergent.
