

BULK SUPER KLIPS

Super Klips & Wire Klips are adhesive backed Flick Open & Shut Fasteners that are intended to hold, organize, and hide items such as cables, piping, tubing, cords, ropes, hoses and countless others. Our Klips can also withstand severe cold and warm weather. One of the most important and unique features of our Klips is that they are easily opened / closed and adjusted for adding or removing cables, tubes, or pipes.

If the adhesive backing option is not preferred two of our Klips can be screwed or nailed in to surfaces in addition to the adhesive backing.

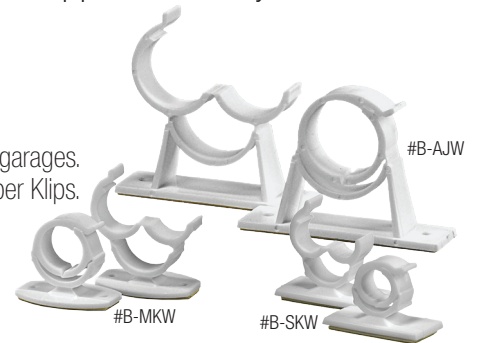

Our plastic flat "flick closure" on our Wire Management Clips (B-KKW) assure a tight closure for round or flat wires. The versatility of both our Super Klips and Wire Klips make them a great tool for a variety of Industrial and Commercial applications. We are always hearing from customers about new applications they invent for these little helpful Klips.

OUR INDUSTRIAL LINE OF SUPER KLIPS & WIRE KLIPS

Super Klips Round

Ideal for organizing loose wires, cables, tubes, piping. Ideal for arranging work stations, shops and garages. Self Adhesive Backing requires no installation. Screw Mount option offered on two of the Round Super Klips. They are also great for hanging tools on Shop or Garage Walls.
