

# 3DFix

## IMPREGNATING & SEALING INDUSTRIAL STRENGTH CA ADHESIVE

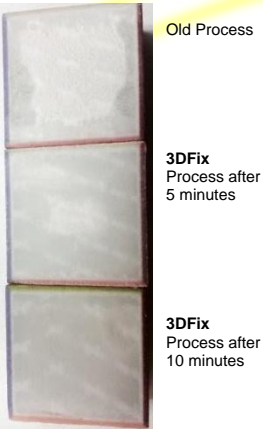

### LOW ODOR, NON-BLOOMING, LOW VISCOSITY

- **3DFix** is great for impregnating your gypsum-based 3D printed models
- Wicking grade, low out-gassing instant adhesive
- Designed for added strength, durability and sealing that provides a low cost, value added advantage
- Make your 3D models up to **6 times** stronger in tensile strength!
- This process is ideal for stop motion animation models, prototypes, professional and architectural models, engineering models, consumer product models, fine art production; and, of course, assembly applications with *high cosmetic appearance!*

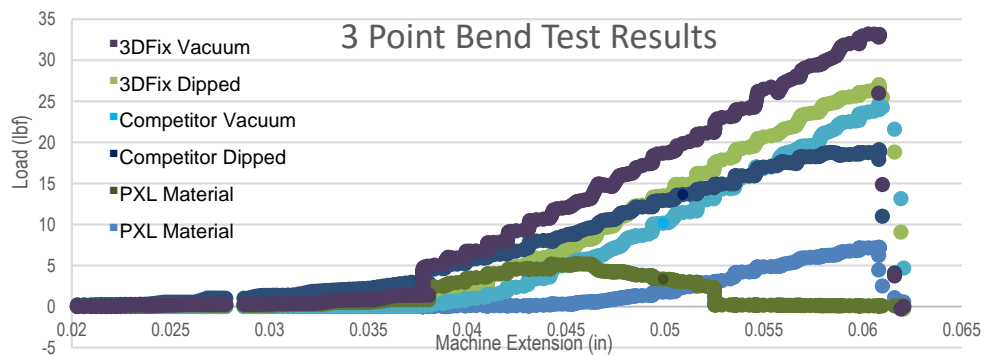

### EXCELLENT FOR USE ON APPLICATIONS WHERE APPEARANCE & STRENGTH MATTER

Cube Size 1" x 1"

- Transforms the once brittle models making your creations **POP** and **STAND OUT** with **COLOR**
- Our *patent pending process* infuses and impregnates the 3D printed models making them strong, durable and long-lasting
- Eliminates frosting and odors typically associated with super glues
- Low out-gassing . . . Great for use in areas with poor ventilation
- A single-component, one-part room temperature cure, solvent-free system that does not require the use of a catalyst, heat or clamps
- Color: Transparent, colorless to straw color

| Part No. | Product           | Size         | Case Qty |
|----------|-------------------|--------------|----------|
| 91200    | 3DFix Adhesive    | 500gr bottle | 20       |
| 91201    | 3DFix Adhesive    | 2kg bottle   | 6        |
| 91202    | 3DFIX CA Adhesive | 20kg bottle  | 1        |
